

## FREE Electricity From The SUN...

### SELF - PRODUCE ...

“ Stop the Power Outages, Voltage Problems, Electricity Bill, Cost of Generator Fuel ! ”

We Have Been Focusing on Production of Electricity From The Sun (Solar-PV / Photovoltaic)

#### Solutions:

- **AC 230 Volt** Power Generation for **Off-Grid (Stand-Alone)** Systems.
- Locations which have problem about lack of electricity;  
Against the voltages changes **Regulated-Fixed Power**  
Against the power outages **Uninterruptable-Continuously Power**

#### Advantages:

- 24 / 7 / 365 comfort with uninterrupted and safe electricity,
- Extending the life of electrical devices and protect them,
- Provides the possibility to generate its own electricity,
- Operate independently of the network, provides the freedom and convenience, portable
- Scalable and modular design, the power can be increased on demand
- Operation and maintenance costs are negligible compared to other systems
- Can be used everywhere, in every region and all seasons
- Practical, easy to install, plug-and-play.
- Photovoltaic materials lives for 25+ years
- Full-Pure Sine Wave (50hz) same as grid.
- High Quality equipment, warranty and technical service support
- Eco-friendly and does not require a permission ...

#### Areas of Applicatios :

Households, Businesses, Offices, Alarm-Security and Camera Systems, Security Projectors, On Roof, Agricultural and Dripping Irrigation, Road Street and Garden Lightning ,Traffic Lights, Water Chlorination, Dosage, The Pump Stations, Water Tanks, Boat, Yacht, Ship, Maritime and Marinas; At The City Center, Rural Area, City, County, Municipality, Town, Village; Hospitals, The Emergency Lighting Requirements, Cordless Phone, Gsm and etc. Communication; Farms, Fish Farms, İdeal for Beekeepers and Shepherds, Open Place and Land ...

## FRANCHISES WILL BE

**TÜRKMAL**  
MADE IN TURKEY  
صنع في تركيا

**NORM ENERJİ**  
SİSTEMLERİ LİMİTED
